What could your organization do to increase your satisfaction and productivity while working from home?

- Ask how I am doing, that would make me feel appreciated
- Check in with me
- Daily phone calls
- Flexibility!
- Flexible hours so I can go to the grocery store and homeschool my kids
- Send motivational emails
- Understand if I need to log off for a few hours to be with my kids
- Virtual Meetings

What additional actions could your organization take to lessen the impact of the Coronavirus (COVID-19) pandemic on your organization?

- Brainstorm and execute ways we can continue to generate revenue
- Can we take this time to research and apply for the grants our organization is eligible for? We've always been too busy in the past….
- Continue doing the routine things that we can, e.g., meetings, virtual luncheons, employee of the months, recognition awards
- Defined Risk Management Plan
- Look at ways we can cut costs that don't require furloughs or wage reductions
- Provide weekly updates on how the organization is doing
- Strategize and communicate
